

14th International Conference on Military Geosciences

June 20-24, 2022
Charleston, South Carolina
College of Charleston

Military Geosciences in the 21st Century: Past Lessons and Modern Challenges

ICMG22 – The 14th International Conference on Military Geosciences, Charleston South Carolina, U.S.A.

UPDATE: The Conference Committee has been monitoring the pandemic situation in the U.S. and abroad. Despite the apparent progress being made, it still far from clear as to what the situation may be in June 2021. Therefore, with great regret, the Committee has decided to postpone the 14th ICMG until 2022. Further details will be released in the coming months. General details have been updated below to reflect the change in dates, but the general program of events for the conference and post-conference excursion remains extant.

New Date: June 20 – 24 2022

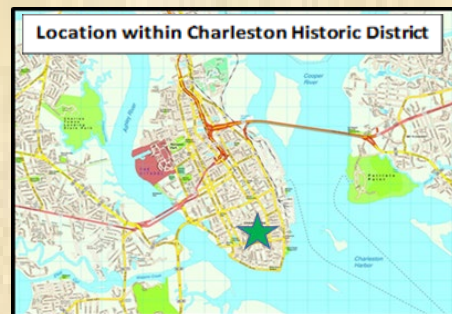

Conference Theme: Military Geosciences in the 21st Century: Past Lessons and Modern Challenges

Location: The Conference will be held from **Monday June 20 through Friday June 24, 2022**, on the **Campus of the College of Charleston**. The Conference is being organized on behalf of the Desert Research Institute (DRI, Reno, Nevada), the Department of Geology and Environmental Geosciences, College of Charleston, and the International Association for Military Geosciences (IAMG).

Themes: We seek abstracts that link a wide range of military activities within a broad span of geological, geographical, archeological, suitability, historical, and spatial analysis. Examples include (additional examples can be viewed at <http://militarygeoscience.org/about/>):

- Engineering Geology
- Hydrogeology
- Geospatial Sciences
- Geophysics
- Climatology
- Environmental Science
- Cognate disciplines
- Warfare and geology
- Military response to predictive climate change
- Beyond warfare: Pandemics to providing vital resource
- Terrain Analysis
- Historical Geography
- Geomorphology
- Land Management
- Military tourism
- Naval geography
- Environmental issues of military activities
- Geospatial intelligence
- International security: borders to natural resources
- Archaeology

Abstracts: Due to the postponement of the planned 2021 conference, we are still reviewing the schedule but anticipate submission deadline of March 30, 2022. A volume of peer-reviewed papers presented at the Conference will be published summer of 2023.

Post-Conference Excursion: Coastal Geology and Military History: A post-conference tour is being planned, dates to be confirmed but likely to be June 25 through June 28. The excursion will begin in Charleston, SC and likely end in Charlotte, NC. The theme of the tour will be military history and coastal environments.

Conference Committee:

- Prof Eric McDonald (DRI)
- Dr. Brad Sion (DRI)
- Prof Steve Henderson (Emeritus, Oxford College, Emory University)
- Prof Tim Callahan (Chair: Geology and Environmental Geosciences, College of Charleston)
